

Sample: 2DIB

Wind River Formation cobble

A) Radial plot of AFT ages and Dpar

B) Track length histogram

C) Expected vs predicted length distribution for model with depositional age constraint

D) Observed vs predicted AFT age for model with depositional age constraint

E) Thermal model using QTQt for model with depositional age constraint

F) Expected vs predicted length distribution for model run unconstrained

G) Observed vs predicted AFT age for model run unconstrained

H) Thermal model using QTQt for model run unconstrained

Run 4 : EXPECTED
